## WHOLESALE ORGANIC BEEF

You choose the cuts you want!

\$50.00 down payment per quarter to confirm your order. The remainder is due when you pick up the beef. You can generally expect your beef to be ready 4-6 weeks after you place the order. An average quarter yields 105-115 pounds of meat in your freezer, this varies slightly depending on animal size and what cuts you choose. Our price is for a mixed quarter (or divided side). A hind quarter is available upon request and with an additional price.

We will schedule the butchering date and let you know when to call the processor with your order. When your meat is ready, you will be notified by phone of pick up time and date.

Please keep in mind that all quarters include a variety of cuts including ground beef, which is usually 50-66% of the yield. You can choose to have your beef white wrapped or cry-vacked. The processors are helpful with any questions concerning how you would like your meat cut up. They do charge an additional cents per pound for special cutting (cubes, patties, chip steak).

Wholesale prices are by **HANGING** weight:

#1 QUALITY CERTIFIED ORGANIC BEEF      \$ 2.31/lb

### EXAMPLE

Joe Snow ordered a quarter #1 quality organic beef. His invoice will look like this :

	#1 quality beef @ \$2.31/lb hanging weight	
1/4	Average 650lb hanging weight/beef	\$375.38
	Processing (average quarter)	\$105.00
	<b>TOTAL COST for Quarter</b>	<b>\$480.38</b>

We also offer a large quantity discount in our retail store on ground beef and patties only— 20% off the retail price on orders of 100 pounds or more. A great option if you are interested primarily in ground beef! Call for more details.

HAVE A QUESTION OR WANT TO PLACE AN ORDER? CALL 717- 627-7840

Notes on calling the processor (only after notification from Danda Farms):

N. S. Troutmans & Sons 1.800.326.9478

Ask for Nick. He is usually in 7am-2pm.

Refer to your quarter as a side divided.

\*Fee for off -farm pick-ups/delivery .
